FOR IMMEDIATE RELEASE

Humane Society of North Texas Receives \$15,000 Grant from Banfield Veterinary to Enhance Medical Equipment and Animal Care

July 1, 2024 – Fort Worth, Texas: The Humane Society of North Texas (HSNT) is pleased to announce a \$15,000 grant from Banfield Veterinary to support the purchase of essential medical equipment. This funding will enhance HSNT's ability to provide high-quality care to the many animals who come through its doors, including owner surrenders, strays, and animals rescued from cruelty cases.

With Banfield Veterinary's support, HSNT will upgrade critical equipment needed to improve surgical procedures, infection control, and general medical care for both shelter and public clinic animals. This investment is expected to impact an estimated 73,500 pets over the next five years, promoting safer, more efficient treatment and reducing the risk of illness among animals in our care.

"We are incredibly grateful to Banfield for their support," said Destiny Vandeput, Director of Communications for HSNT. "This grant allows us to better serve the vulnerable animals who need us, ensuring they receive the medical attention they deserve."

HSNT's public veterinary clinic, serving over 3,500 community pets annually, will also benefit from this grant with new diagnostic and surgical tools that support low-cost services for local pet owners.
